Name: Alex Johnson

Skills:

Python, Time Series Forecasting, TensorFlow, Keras, Model Deployment, EDA

Experience:

- Developed time series models for financial forecasting, achieving 95% accuracy.
- Built deep learning models for image recognition tasks in e-commerce.
- Deployed machine learning pipelines on AWS for scalability.

Projects:

- Creating predictive models for stock price movements.
- Optimizing recommender systems for better user engagement.
- Implementing advanced model evaluation frameworks for reliability.
Fit to JD: True
